"PROBABLE CHANGES."

Under this caption we find a leading article in the *Chronicle* of the 31st ult., which surprises us, not so much on account of any literary qualities it possesses as the extraordinary admissions it contains. Our contemporary speculates upon the probability of British Columbia having a separate Government, and, in the event of of such a change, the results, commercially as well as politically, so far as Victoria is concerned. He admits not only that we will strike out boldly for direct trade, but that there are no natural obstacles in the way. He expresses his doubts as to the soundness or durability of the Victoria free port system, and intimates that the continuance of that very system will tend to drive both trade, capital and population to here or some other point in this Colony—he would fain make himself hope Bute or even Burrard Inlet. He asks in dismay, "where are all the boasted resources of Vancouver Island?" He even goes the length of expressing a fear that with the advantages of self-government we may not only relieve Victoria of the British Columbia trade, but compete with them for the trade of some of the settlements on the Island "which are more accessible from our harbors than from Victoria!" Moreover, he admits that were these Colonies united under one Government Victoria would soon be nowhere.

In contemplating the helpless and forlorn condition of the little Island if left to "paddle their own canoe" he says: "When we lose the little control over British Columbia which we now possess through the Governor of this Island, and are left to work along by ourselves, we shall be a very small affair indeed." Oh, naughty *Chronicle*! What will not the *Colonist* do to you for being so silly as to let out the truth after such a childish fashion, supporting all we ever ventured to say upon the subject, and overturning the grand castle your local contemporary has been so assiduously engaged in building these two or three years past? But never mind. Castles built upon sand or in the air are destined to fall sooner or later any way; and no blame to the hand which topples them over a little before their natural time.

The article concludes in the following fashion: "It is by no means delightful to have such an ugly picture thrust suddenly before our eyes, but it is idle and silly to sit listlessly down and twiddle our thumbs, as they do over the long bridge, in the belief that we must go ahead without any exertion. What we have said is quite rational, every word of it, and it will do no harm if some of our heavy minded men pondered the subject well and adopted measures accordingly." We can hardly go the length of giving our contemporary credit for candor when he professes only just to have seen this picture for the first time, as such a conclusion would imply an obtuseness which we would not like to attribute to him. But we do give him credit for the possession of more honesty, if not more penetration, than his local contemporary.

But, seriously, the ground taken in this extraordinary article is only too true to be palatable to the readers of the *Chronicle*. The writer has taken a rational and shrewd view of the whole question, and will, we trust, live to see his predictions verified. He would still seem to entertain some doubts as to the reliability of the statement we made a few days ago to the effect that we are to have a separate Government. He may rest assured, however, that this has been fully decided upon by the Imperial authorities; and it only lacks the formality of passing through the House in order to give it a definite form. We look upon the whole thing as being as good as done. The important mission entrusted to our delegate is virtually accomplished.

There is one extract given above which stands out in all its naked deformity—the control Victoria enjoys over British Columbia through the medium of Governor Douglas. What has the *Colonist* to say to that? He has always contended that New Westminster has had a fair opportunity, and the fact that trade has not centred here is proof positive that nature never designed it should. We, on the contrary, have held that the entire policy and administration of the Governor were to force the trade to Victoria and prevent it from coming here, a truth which the *Chronicle* freely admits, and confesses that so soon as they lose the medium of control the tables will be turned. New Westminster will increase, but Victoria must decrease.

And what a pitiful picture does this bring to

light. The Governor of two British Colonies using his position to render the greater Colony entirely tributary to the smaller, because his own personal property and that of a knot of friends happens to be situated in the latter, and because, by this means, it is enormously increased in value. Sacrificing a Colony and oppressing a people for his personal aggrandizement! Such conduct is a gross breach of trust. It is little short of treason!!

IMPORTANT TO WILLIAMS CREEK MINERS.

NOTICE IS HEREBY GIVEN that the undersigned will be prepared to furnish LUMBER of all descriptions suitable for Building, Fluming, Sluicing, Rifles, &c., on Williams Creek and Jack of Clubs Creek, on or before the fifteenth of May, 1863, without delay, as they are erecting a Water Power Mill that will turn out from ten to fifteen thousand feet of Lumber per day. We hope by giving this timely notice that we may secure the trade and greatly benefit those who may favor us with their patronage, as we will be prepared to furnish Lumber at greatly reduced prices, which all must acknowledge will be of great benefit to the business, as well as the Mining community, in a section of country where Lumber has up to the present time been sold at the enormous price of \$250.00 per thousand, owing entirely to the article having to be whip-sawed and labor consuming such high prices. With the use of this Mill we hope to place all parties wanting Lumber in possession of it immediately, thereby facilitating their mining operations greatly, knowing as all do that business as well as mining has been greatly retarded, from not being able to procure Lumber when mostly needed. And we hope with the aid of our Mill, together with the Williams Creek ditch, which will be completed in time to furnish all with water in the Hill Claims and not interfere with the Creek Claims, also, the surplus waters of Jack of Clubs Creek and Ground Hog Lake turned over the divide into Williams Creek, will enable hundreds, if not thousands, who from the scarcity of water, without the aid of the above named ditches could not profitably do so, to work their Claims; also the great and beneficial benefit which will be completed in time to furnish all with water in the Hill Claims and not interfere with the Creek Claims, from the great and costly bed-rock Flume, being at present partly constructed, for the purpose of carrying off effectually the tailings that must, with the advancement of mining on the whole Creek and hills on both sides of the Creek, naturally fill up and prove a great nuisance, owing to the scarcity of water, there not being a sufficient quantity most of the season running naturally in Williams Creek to accomplish the great work; but with the assistance of the surplus waters of Jack of Clubs and Ground Hog Lake waters flowing into Williams Creek and the great bed-rock Flume to carry everything through it, will not only prove of incalculable benefit to all, but place Williams Creek beyond the rivalry of any other mining locality in the Cariboo country.

NEW WESTMINSTER, SATURDAY, APR. 4.

THE PRESENTATION.

At 10 o'clock on Thursday a deputation, consisting of the Mayor, Col. Moody, R. E., Capt. Cooper, and Messrs. W. E. Cornack, W. J. Armstrong, J. A. B. Homer, E. B. Holt, W. Clark, son, Valentine Hall and John Robson, proceeded to the Grand Saloon of the steamer Enterprise where they presented an address, accompanied by a valuable gold watch, to the Rev. E. White, upon the occasion of his departure from this city. Upon the inner case of the watch was neatly engraved: "Presented to the Rev. E. White, by the citizens of New Westminster, as a token of their esteem." The following is a copy of the address, which was read and presented by the Mayor, together with Mr. White's reply thereto:

ADDRESS.

NEW WESTMINSTER, April 2nd, 1863.

To THE REV. E. WHITE,

DEAR SIR,

On behalf of the inhabitants of New Westminster we express regret at your departure from this city.

Belonging to various denomination of Christians, we disclaim all desire to question the policy of the Wesleyan Church in removing you from a place where you have with singular felicity blended the duties of a Christian Pastor with the ability of an intelligent adviser and active promoter of every circumstance that might tend to advance our social and material progress; but we may be permitted to echo the universal wish that it had been ordered otherwise.

Accept this present from the people, as a small token of the esteem in which you are held; and believe us, in saying farewell, you and your family carry with you our best wishes for your continued prosperity and happiness.

We are,

Dear sir, &c. &c.

REPLY.

NEW WESTMINSTER, April 2nd, 1863.

GENTLEMEN,

The kindness and catholicity of the people of this city, as evinced by the address which you have just read, is more than I was prepared to expect.

I have, it is true, taken a lively interest in every movement that has tended to promote our mutual progress, honor and happiness; but in so doing I have only feebly discharged my duty as a citizen and a Christian.

As you well know, I have always felt strong confidence in the resources and permanent prosperity of British Columbia, and of this city in particular. The superiority of its geographical location, the intrinsic excellence of its site and the intelligence, morality and indomitable perseverance of its early inhabitants, have already gained for New Westminster a fair name and honorable position, and the future is full of hope.

The difficulties and discouragements of the past are familiar to my memory, and I shall always admire the noble manner in which you have met and overcome all that has opposed your onward march.

I cannot but reciprocate the regret you kindly express at my having to leave the Colony just at this time; but I earnestly hope that the great wheel of Wesleyan itinerancy, which now rolls me from you, may some day so turn as to bring me again to the place where I have spent the happiest four years of my past life.

The valuable present which accompanies your address I receive with thanks. It shall ever be carried by me as an emblem of the sterling worth of the givers, and as a remembrance of the many pleasing associations of our pioneer days in this country.

Thanking you for your good wishes for me and my family, I pray that the blessings of a kind Providence may be richly yours, and that the future of your Colony and city may be happy and prosperous. For myself and family I now bid you and those you represent a somewhat sorrowful, and yet, in many respects, a pleasing farewell.

I remain, Gentlemen,

Your sincere friend and well-wisher,

E. WHITE.

We may be permitted to add that the high compliment thus paid to Mr. White was a spontaneous expression from the community, without reference to sect or creed. As will appear from the names of the gentlemen composing the deputation, the Church of England preponderated. All this indicates a state of feeling in this city which we would fain hope may be perpetuated.

The subject of this demonstration is entitled, we believe, to be called the pioneer missionary of New Westminster. He landed here with his family about four years ago, where he has resided ever since, doing battle valiantly for the Colony and its capital against the combined attacks of mosquitoes, croakers and Victorians. He has, as a citizen, taken a lively interest and active part in every movement having for its object the advancement of the Colony; and beyond his professional duties he has truly proved himself a good citizen. Mr. White cannot but be missed. Coming here when the site now occupied by the city was covered by a dense and gigantic forest, and being closely identified with the growth of the town and its institutions, the vacancy created by his departure will not be easily filled. Eminent success in organizing and maturing all the organizations of that church which he more particularly represents, he had the good sense to respect those who differed from himself in creed, and the happy faculty of aiding materially in every public movement without derogating from his position as a minister of the gospel of Christ. In a word, the subject of these remarks is pre-eminently qualified to be a pioneer missionary.

FATAL RESULTS OF MALADMINISTRATION.—We intimated some time ago that the result of the additional road toll would probably be the withdrawal of several of our largest packers. We learn that Mr. Dodge has already withdrawn, and that Mr. Nelson is preparing to follow. These gentlemen are the two most extensive forwarders in the Colony; and such a result, at a time when all our forwarding capacity is needed, is much to be deplored, and ought to make our stupid Government pause in their mad career.

INDIAN MURDERS.—Our Victoria contemporaries state that a Scotchman named Fisher, who belonged to the sappers and miners, and was employed on the boundary commission under Col. Hawkins, was shot by Bella Coala Indians near their settlement at Bentinck Arm. They also report the finding of the body of a miner on the beach, who, having unfortunately been induced to take the Bentinck route from Cariboo, in all probability came to his death by Indians.

ECCLESIASTICAL.—The Rev. A. Browning and family came down by the Reliance yesterday morning and took up their residence in the Wesleyan Parsonage.

COLONEL MOODY, R. E., and staff went down to Victoria by the Enterprise on Thursday. He is expected to return in a week.

THE STR. ENTERPRISE went round by Nanaimo on Thursday for the purpose of taking the Rev. E. White and family to that place, and conveying the Rev. E. Robinson and family thence to Victoria en route for his appointment in this Colony.

SIWASH EXCHANGE BROKERS.—We understand certain red-skins are engaged in quite a lucrative trade between this city and Victoria by taking down quarter dollars and buying up furs which only pass for 37½ cts. there, and put them off here at 50 cts., thereby clearing 33½ per cent. by the operation. The consequence is that quarter dollar pieces are becoming inconveniently scarce and furs are inconveniently plentiful. This trade should be discouraged.

SHIPPING.—We have been for some time in daily communication with the up-river towns. The Reliance, Dutchman, Col. Moody and Hope are all running, and the Douglas is daily expected to take her place on the river. Between the Enterprise and the Eliza Anderson we have also almost daily intercourse with Vancouver Island.

BUHARRD INLET is likely to attract considerable attention soon as a fishing ground. We are informed that fish of almost every description usually found in salt water are to be taken there in great abundance. Our connection with that place ought to be rendered more intimate this season by means of a good road direct from this city.

GOOD FRIDAY was generally observed as a holiday. The places of business were all closed. The R. E. Cricketers had practice for a match to come off on Monday between the married and single. Divine service was performed in Holy Trinity Church.

THE HYACK ENGINE is expected to arrive at Esquimalt by the next California steamer, due to-day or to-morrow. It is possible, however, that the "TIGERS" will keep it for a few days; so that it need not be expected here by the first trip of the Enterprise.

COP-FISH.—Mr. Tranfield has several men engaged in cod fishing at Burrard Inlet, from whence large quantities are sent to market here. We saw some very fine ones exposed for sale on Thursday.

FREIGHT WAGONS.—The Enterprise brought up five large new freight wagons, the property of the Hudson Bay Company, to be placed on the road between Boston Bar and the Thompson River ferry, not, as the Chronicle states, to run between Yale and Fort Kamloops; there is no wagon road either under way or in contemplation there. We understand these wagons cost \$250 apiece.

SPLENDID POTATOES.—Mr. Howson, who commenced farming opposite Langley last year, raised 500 bushels of as fine potatoes as we remember to have seen or eaten in any country. They are very large, dry and well flavored. Mr. H. brings down a canoe load about every ten days for sale here.

FOR FORT SIMPSON.—The Bishop of Columbia started for Fort Simpson on Sunday, on H. M. ship Devastation. His lordship will examine into the condition of affairs at the Mission there, and upon his return will proceed to England.—Chronicle, 31st March.

ACCIDENT TO THE RELIANCE.—We regret to learn that the Reliance struck a snag near the Chilliwack on her way down yesterday morning before daylight. The damage is not very serious, and will probably be repaired in time to enable her to keep up her regular trips. The shock from striking the snag caused a man to fall overboard, but, hanging on to the snag, he was speedily recovered.

PIONEERS.—Remember the monthly meeting of the B. C. P. A., at the Hyack Hall this evening.

THE WEATHER has been very fine for some time and vegetation is starting. The alder and willow are rapidly donning their garb of green.

THE CRANFORD CASE.—Mr. John P. Cranford was released last week under the Bankrupt Act, and has gone to Victoria to prepare for his brother's suit against Mr. Wright, which is to come on for trial there at the approaching Assizes.

To the Editor of the British Columbian.

SIR,—Your animadversions upon the Victoria Post-office are as truthful as severe. Lay on the lash. But what about home affairs? Censure, like charity, should "begin at home." You cannot but be aware that the state of matters in the New Westminster Post-office (save the mark) is a subject of universal complaint, nay, exclamation. Pray chastise the delinquents whoever they are; and let me beg of you and the public not to call the thing a Post-office so long as matters are mismanaged as they are now. Call it the GENERAL DEAD LETTER OFFICE. The poor thing has been belied long enough.

While on the subject of home manufactured abuses, might I inquire what has become of the Royal Engineer Episcopalian vestry building? You said some time ago in reply to a correspondent that you were not afraid of "gallant Colo-

nels" or "worthy Rectors," nor indeed any body in particular or in general, and you would make an investigation, find out the exact state of the case, and "pitch into" the corruption wherever it lay. What has become of your inquiry? The work still goes bravely on, and you still stand bravely off. Everybody wonders, and everybody asks every other body what has the Colonel done to the Editor? He wouldn't hurt you, would he, if you would tell your readers, in confidence you know, what he has said, or done, or proposed to do? The prospect of his being elevated to a Governorship cannot have anything to do with it—it hasn't burked the inquiry, nor caused the courageous valor to evaporate? Pray excuse a bad pen, and the liberty I take.

Yours,

FIDO JUNIOR.

[We regret to hear such a character of our Post-office; and, if merited, we trust the hint will be taken and the abuses removed. In regard to the other subject so wittily and sarcastically alluded to, we have to say that we sought information from Colonel Moody, from whom we learned that it was usual for his men to have free sittings in churches wherever they attended, and it was his desire that they should give work as a sort of equivalent; that he had made the offer in good faith and with the best of feeling to the other churches, and he regretted that they had thought proper to decline its acceptance. That, in fact, it was a sort of military rule he had carried out wherever he had been. Viewing the matter, therefore, as a sort of military affair with which we had possibly little right to interfere, altho' objecting to the principle which we conceived to be involved, we allowed the matter to drop. So far as the Church of England here is concerned, the service was offered by the Colonel and accepted by the Rector, and the men are on full pay while engaged thereat.—Ed.]

Poetry.

PADDLE YOUR OWN CANOE.
Yonder upon life's sea,
To yourself be true,
And whate'er your lot may be,
Paddle your own canoe.
Never, though the winds may rave,
Falter nor look back;
But upon the darkest wave,
Leave a shining track.
Nobly dare the wildest storm—
Stem the hardest gale;
Brave the heart and strong the arm,
You will never fail.
When the world is cold and dark,
Keep an aim in view;
And toward the beacon mark
Paddle your own canoe.
Every wave that bears you on
To the silent shore,
From its sunny source has gone
To return no more.
Then let not an hour's delay
Cheat you of your due;
But while it is called to-day,
Paddle your own canoe.
If your birth denied you wealth,
Lofty state, and power,
Honest fame and hardy health
Are a better dower.
But, if these will not suffice,
Golden gains pursue;
And to reach the golden prize
Paddle your own canoe.
Would you wrest the wreath of fame
From the hand of fate?
Would you write a deathless name
With the good and great?
Would you bless your fellow men?
Heart and soul imbue
With the holy task; and then
Paddle your own canoe.
Would you crush the tyrant wrong
In the world's free fight?
With a spirit brave and strong,
Battle for the right.
And to break the chains that bind
The many to the few,
To enfranchise the slavish mind,
Paddle your own canoe.
Nothing great is lightly won;
Nothing won is lost;
Every good deed nobly done,
Will repay the cost.
Leave to heaven, in humble trust,
All you will to do;
But if you succeed, you must
Paddle your own canoe.

THAT MAIL SYSTEM.

Knowing the smallish character of the Govern-
ment we were willing to give them five or six
months in which to prepare a Postal System for
this Colony; but we are unwilling to extend
their probation beyond that period. If they can-
not in six months originate and mature what we
venture to assert an intelligent expressman
would accomplish in as many hours, they ought
to be convinced of their total unfitness for the
position they occupy, and ask to be relieved
from the responsibility. We never until now
dreamed of men intrusted with the administration
of the Government of a British Colony display-
ing such amazing incompetency in the simplest de-
tails of public business. We had hoped their
bungling had reached its culmination in the great
mail system of 1862; and that they would have
learned a little common sense from the dearly
bought experience of that unparalleled abortion.
We felt all but confident that the commencement
of this season would witness the inauguration of
a postal system which, although it might be very
defective, would at least in some measure prove
commensurate with the present wants of the
Colony. But up to the present writing we have
not heard so much as a whisper about its advent,
although the season's trade commenced over a
month ago.

If any evidence were wanting to prove the
utter incapacity of our Government we most
assuredly have it in the history of the Postal
department. Scheme after scheme has been de-
vised, men with grey heads and long experience
have spent months of thoughtful days and sleep-
less nights over this marvellously abstruse and
difficult subject. The Executive of British Col-
umbia has for many months been writhing in the
pangs of parturition, and yet, so far as is known,
the result may be a perfect and promising child,
or it may be a mere idiot, or a mouse.

We have now steamboat and stage coach con-
veyance as far as Williams Lake, and in a few
weeks we shall have it as far as Alexander; and
yet it is esteemed such a tremendous undertak-
ing to give us a mail system by which letters can
be sent through for less than a dollar a piece,
and so slow, irregular and uncertain at that as
to destroy the last shred of confidence in Her
Majesty's mail bags. All classes are thus forced
to use the expensive medium of the Express, which
altho' costing more, possesses the important ad-
vantages of dispatch and reliability. And were
even the Expressmen allowed a fair field the
public would not be so badly off. But the exor-
bitant rates of the present outrageous mail sys-
tem are exacted upon every letter passing through

THE BRITISH COLUMBIAN.

the Express, and the enterprising men who are
in the business are kept waiting in painful uncer-
tainty as to the future, unable to organize their
machinery until they know what the result of
the labor of the mountain may be. Is it possible
that this state of things will be permitted to ex-
tend its chilling, blighting influence over another
business season?

EASE AND HEALTH TO THE SICK HOLLOWAY'S OINTMENT.

DISORDERS OF THE SKIN.
Universal approbation has been awarded to this fam-
ous Ointment for its efficiency in removing diseases of
the skin. For scrofula, scurvy, scald heads, and all
eruptions of the skin, both in infancy and mature years,
no remedy can be applied which so quickly cures as
Holloway's Ointment. In the nursery it should always
be at hand to ease the many skin affections to which
the majority of children are liable. In all heat and
tooth rashes, the Ointment is wonderfully cooling and
curative. To soldiers, sailors, miners, and travellers in
foreign lands, it is invaluable.

SORES, WOUNDS, BAD BREASTS, BAD LEGS.
In this class of maladies, an improvement in the ap-
pearance of the disease of the patient, follows the first
dressing with the Ointment.
It must not only be smeared on the wound, or sore,
but be briskly rubbed for some inches round about the
diseased swollen or painful parts. It will penetrate to
the blood vessels, nerves, and muscles, and even to the
bone, and will exercise the most wholesome, healing,
and purifying power over every tissue requisite for thor-
ough reparation. The effect of the Ointment is increased
by fomenting with warm water before the Ointment
is rubbed in; but sores, when healing, should never be
cleansed with sponge or anything else, as the young
and new flesh which appears like a cream, would be
washed away.

BLOOD TO THE HEAD, APOPLEXY.
Nothing gives so much ease in these complaints from
which so many suffer, as Holloway's cooling and heal-
ing Ointment. When rubbed upon the spine it acts
most energetically in drawing surplus blood from the
brain; even to children in teething; this Ointment has
a miraculous effect in preventing fits and convulsions,
so often attendant on tooth-cutting. The Pills should
be used according to the directions.

RHEUMATISM, GOUT, STIFF JOINTS.
Every one suffering from these painful affections
should use this purifying Ointment, as it has rescued
thousands from a life of torture, after every other means
had been tried in vain. The Ointment should be well
rubbed into the skin at least twice a day, after it has
been properly fomented with warm salt water, and dried.
The inflammation soon yields, and the patient no longer
helpless, resumes his accustomed occupation.

GLANDULAR SWELLINGS, BRONCHITIS, MUMPS, SORE THROAT,
AND DIPHTHERIA.
To combat these diseases with success, a remedy is
required which will have the whole absorbent system
under its control. Such a remedy is Holloway's Oint-
ment, when rubbed on the skin; it penetrates to the
glands, and removes any obstruction or impurity which
may be impeding their healthy action. This Ointment
sets on the very mainspring of life, for through the
glands pass all new matter required for the body's re-
paration; in all the above class of cases, the Ointment
and Pills used conjointly will act so searchingly, and
certainly, as to effect cures in the most deplorable cases.

PISTULAS AND PILLS.
All inflammations and ulcerations of sensitive parts
may be presently relieved, and ultimately cured, by the
diligent use of this cooling and healing Ointment, aided
twice daily by bathing the parts in cold water. Imme-
diate ease springs from this treatment; perseverance is
necessary to effect a permanent cure.

ASTHMA, SHORTNESS OF BREATH.
In these complaints the Ointment should be well rub-
bed twice a day upon the chest, and between the shoul-
ders; it will penetrate to the lungs, stimulate them to
renewed exertions, prevent stagnation of blood, mod-
erate the pulsations of the heart, regulate the current of
air through the bronchial tubes, and thus effect a per-
manent cure.

Both the Ointment and Pills should be used in the following
cases:—
Bad Legs. Chapped Hands. Scalds.
Bad Breasts. Contracted and Sore Nipples.
Burns. Stiff Joints. Sore-throats.
Bunions. Elephantiasis. Skin-diseases.
Bite of Mosquitoes. Fistulae. Scurvy.
and Salt-Flies. Gout. Sore-heads.
Coco-bay. Glandular Swellings. Tumors.
Chieft-foot. Lings. Ulcers.
Corns (soft). Lumbago. Wounds.
Cancers. Piles. Yaws.
Chilblains. Rheumatism.

with the following distances set down by Lillooet
Shippers:
From Douglas to Lillooet, 110 Miles
" Lillooet to Junction, 47 "
Dist. from Douglas to Junction, 157 "

THE JUNCTION

is the point at which the Wagon Roads intersect each
other, and where the Cariboo-bound traveller by the
Yale-Lytton and Douglas-Lillooet routes MUST meet.
It will, therefore, be seen by the above figures that the
traveller by YALE and LYTTON has
THIRTY-THREE MILES LESS TRAVEL
than if he went by the Douglas-Lillooet route.

Remember that on this Route there
are NO PORTAGES where Goods or An-
imals may be detained.
